M

WELCOME TO MERRIGNEE MERINO STUD'S 34th ANNUAL UNHOUSED RAM SALE

On behalf of Merrignee Merino and Poll Merino Stud, we welcome you to our 34th annual on-property **unhoused** ram sale of superfine, fine, and fine/medium wool types.

The 5 August/September 2022 drop (Lots 1 to 5) and 85 August/September 2023 drop rams in this year's sale catalogue will be available for inspection from 10am, with the auction to commence at 1pm.

The 12 month old, 2023 drop rams to be offered at this auction, and through flock rams sales commencing in mid-October, have been **reared in the paddock, not shedded**, and are in good working order.

To assist with your selections, the 5 2022 drop sale rams were tested by A.W.T.A. in **June 2024**, while the 85 2023 drop sale rams were **mid-side sampled in early August 2024** and fleece tested by Riverina Wool Testers. The 2024 sale ram averages are 17.6 micron, 2.7 S.D., 15.3 C.V., 16.4 Spin F, 99.5% C.F and 105.8% G.F.W.

The 2023 drop sale rams were **shorn on 20th April 2024** for their greasy fleece weight percentage. Current **body weights** will be done the week of the sale and will be displayed above each ram on sale day, along with their fleece tests and sire/family information.

On sale day, the Merrignee 2023 drop **paddock raised** rams will be **12 to 13 months old** and will have **6 months wool** on them.

Jono, Anna, Digby, Toby and Zoe, along with Charlie and Pip, invite you to join us at Little Range. A light lunch will be provided, along with a BBQ after the sale.

- Australian Sheep and Wool Show, Bendigo – 18th, 19th and 20th July
- Hamilton Sheepvention – 3rd and 4th August
- Rabobank National Merino Sheep Show, Dubbo – August
- South West Slopes Stud Merino Breeders Field Day – 2nd September

FLOCK RAMS SALES

Commence mid-October 2024 by appointment

All rams are from the same 2023 drop as those offered at the 34th Annual Ram Sale.

\$1000 (+ GST) per ram | Contact Jono 0427 272 238

SEMEN SIRES

Merrignee Merino and Poll Merino Stud has collected semen from its top sires used within the stud.

\$50 (+ GST) per dose | Contact Jono 0427 272 238

SEMEN RIGHTS

Merrignee Stud rams are sold on the condition that C.T. Merriman & Son retain full semen marketing rights.

CLASSING SERVICES

Jono and Charlie welcome the opportunity to **VISIT YOUR FARM** to discuss your Merino flock, understand your sheep and business aims as well as the topography and climate of your property.

PLEASE NOTE: All 12 month old rams offered at the 2023 Merrignee Ram Sale are paddock reared, NOT shedded.

All rams are Aug/Sept 2023 drop and have only been **shorn once** in April 2024, therefore their fleece weights are only done as a guide as the age of these rams could vary by up to six to eight weeks from the earliest AI lamb born to the last paddock joined lamb born. This is the same with the ram body weights – they are weighed the week of the sale, but are only a guide due to the rams spread of their date of birth in 2023.

On sale day, there will be individual current information for each ram, including micron, S.D., C.V., comfort factor, spinning fineness, GFW%, sire/family and body weights. This information is also included in this catalogue.

Fleece micron, S.D., C.V., comfort factor and spinning fineness measurements are independent of the seller. They are done on **side samples taken from all these 12 month old rams on 2nd August 2024** and tested by **Riverina Wool Testers**. Such information is provided as a guide only and the seller accepts no responsibility for the accuracy nor the repeatability of the information supplied in this catalogue or on the individual display cards above each ram on sale day.

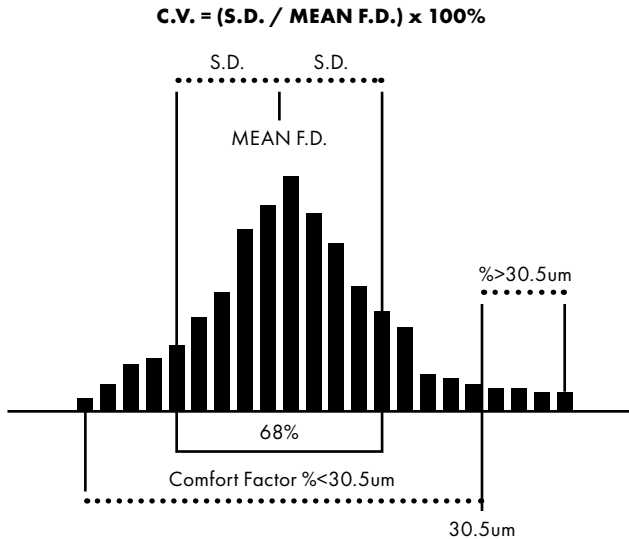

FLEECE TESTING DEFINITIONS

F.D. – Fibre Diameter: The mean (average) micron result of a sample.

S.D. – Standard Deviation: Measures in microns the spread of fibres either side of the mean F.D. in which 68% (two-thirds) of the fibres lie. The lower the S.D. the more uniform the wool.

C.V. – Coefficient of Variation: The C.V. is the S.D. divided by the mean F.D. x 100. C.V. measures the F.D. variability as a percentage. C.V. tends to fall in the range of 15% to 30% – 15% is a very uniform wool, while 30% is a highly variable wool.

C.F. – Comfort Factor: Measures the percentage of fibres below 30.5 microns. Calculated as 100 minus % of fibres below 30.5um.

SpinF – Spinning Fineness: Calculated using mean F.D. and C.V. to determine an 'effective' fineness. This figure gives a measure of spinning performance for wools of any particular micron the spinning performance decreases as the C.V. increases.

Ram sale measurements comply with the standards recommended by NSW Stud Merino Breeders Association.

| | |
|------------|---|
| SALE DATE | Friday 11th October 2024 Sale to commence at 1.00pm Inspections from 10.00am |
| AT | Little Range, 160 Little Range Road, via Cunnigar Road, Boorowa NSW 16kms from Boorowa on the Cunnigar (Harden) Road, then Little Range Road |

CONTACT DETAILS UPDATE

If you would like to be added to or taken from our mailing list or to advise us of any changes or corrections to your details, please fill in the form below and then return it to us by email or post.

Alternatively, you can hand the form to us at our open day or ram sale day. You can also fill in the visitor's book available at the on-property open days or sales.

If you have purchased rams, ewes or semen from Merrignee you will automatically be put on our mailing list, unless you request otherwise, for the following five years.
